

Facility Safety Inspection Procedure

LG-POL-005 Version 1.0 Class: synthetic_procedure

Original synthetic fixture for LocalGuard AI; it contains no real organization, person, facility, or incident data.

[LG-POL-005:H01]

1. Daily inspection

[LG-POL-005:P001]

[LG-POL-005:L001] The Shift Supervisor must complete the pre-opening safety checklist by 08:30 local time on every operating day.

[LG-POL-005:L002] The checklist covers exits, fire equipment, floor hazards, emergency lighting, and first-aid supplies.

[LG-POL-005:H02]

2. Critical hazards

[LG-POL-005:P002]

[LG-POL-005:L003] A worker who identifies a critical hazard must isolate the affected area immediately when it is safe to do so.

[LG-POL-005:L004] The worker must notify the Safety Coordinator within ten minutes after identifying the critical hazard.

[LG-POL-005:L005] Only the Safety Coordinator may authorize reopening an isolated area.

[LG-POL-005:H03]

3. Corrective actions

[LG-POL-005:P003]

[LG-POL-005:L006] A Priority 1 corrective action is due within twenty-four hours after it is assigned.

[LG-POL-005:L007] A Priority 2 corrective action is due within five business days after it is assigned.

[LG-POL-005:L008] The Shift Supervisor must attach completion evidence before marking a corrective action closed.
